

Mercer Med Tech would like to assure its staff and students that the school followed all the instructions, guidelines, and Executive Orders related to reopening post COVID-19 pandemic.

Our plans include all policies and procedures as outlined below:

## INFECTON CONTROL

- We will start our day by performing health screenings, taking each student's and staff's temperature to see if they have a fever before entering the classroom. We will make sure we do not admit anyone into the facility who feel sick or have any symptoms of COVID-19, including fever or chills, cough, shortness of breath, difficulty breathing, fatigue, muscle or body aches, or headache.
- We will start our day by performing health screenings, taking each student's and staff's temperature to see if they have a fever before entering the classroom. We will make sure we do not admit anyone into the facility who feel sick or have any symptoms of COVID-19, including fever or chills, cough, shortness of breath, difficulty breathing, fatigue, muscle or body aches, or headache

## HAND HYGIENE

- We will maintain the supplies for staff and students to wash and sanitize hands periodically at all building entry points and throughout the facility. We will provide students and staff adequate break time to wash hands regularly

## PHYSICAL DISTANCING

- We will enforce social distancing in classrooms, workstations, laboratories, clinical settings, for that's we ordered new **Ergonomic Shell Chair with Right Handed Flip-Up Tablet Arm for each** student to make sure of 6 feet distance. We will provide smaller class sizes and space the desks in student seating areas throughout the facility six feet apart

## CLOTH FACE COVERINGS

- All the students and the staff are required to wear cloth face coverings mask in the classroom

## CLEANING AND DISINFECTION

- We will clean and disinfect classrooms and common areas after each usage like desktops, light switches, doorknobs, etc. periodically throughout the day

## EDUCATION AND TRAINING

- The instructor will provide training for students regarding COVID-19, including topic such as sanitization, hand hygiene, and social distancing practices and protocols as a condition for resuming in-person instruction. (The instruction will be emailed and posted in the website before starting the school)

## VENTILATION

- We consider the methods to get fresh air to individuals and facility utilize the ventilation system. Each classroom has 2 windows and one with window air conditioners that cool and treat the air inside the classroom for a comfortable indoor environment with **HEPA filter** that's removes pollen, dust, dander and other allergens before they can enter the space

## COLLABORATION WITH HEALTH OFFICIALS

- We will collaborate with local and state officials, including local health departments and local office of emergency management to share reopening plans and establish testing guidance and contact tracing protocols in consultation with local health officials

## SPECIAL GUIDANCE FOR LABS, TECHNICAL, AND CLINICAL PROGRAMS

- The staff and the students have to follow the CDC and NJDOH public health standards for personal protective equipment like masks or face shields, physical distancing, sanitizing equipment, hand-washing, cleaning, and disinfection, and exclusion of individuals with symptoms or a positive diagnosis of COVID-19
